

Piper Seneca FAA Certified Level 6 FTD

LOFT is proud to announce the launch of a PA-34-200 flight training device (FTD). Our FAA certified Level 6 Seneca FTD design is derived from Level C/D full flight simulator technology, which means the simulator performance is a truly accurate replication of the actual aircraft. It flies just like the real airplane!

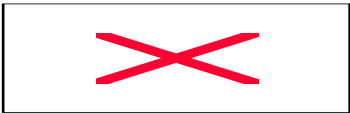

- Gain Valuable Multi-Engine Experience
- Sharpen Your Instrument Scan
- Become IFR Current
- Recurrent Training
- Practice Emergency Scenarios
